PERSPECTIVE
Genetic Evidence for Contrasting Wetland and Savannah Habitat Specializations in Different Populations of Lions (Panthera leo)

ORIGINAL ARTICLES
The Population Origins and Expansion of Feral Cats in Australia
Peter B.S. Spencer, Andrey A. Yurchenko, Victor A. David, Rachael Scott, Klaus-Peter Koepfli, Carlos Driscoll, Stephen J. O’Brien, and Marilyn Menotti-Raymond

Serum Amyloid A Protein Concentration in Blood is Influenced by Genetic Differences in the Cheetah (Acinonyx jubatus)
Ashley D. Franklin, Anne Schmidt-Küntzel, Karen A. Terio, Laurie L. Marker, and Adrienne E. Crosier

Identification of Multiple QTL Hotspots in Sockeye Salmon (Oncorhynchus nerka) Using Genotyping-by-Sequencing and a Dense Linkage Map
Wesley A. Larson, Garrett J. McKinney, Morten T. Limborg, Meredith V. Everett, Lisa W. Seeb, and James E. Seeb

Choosy Wolves? Heterozygote Advantage But No Evidence of MHC-Based Disassortative Mating
Marco Galaverni, Romolo Caniglia, Pietro Milanesi, Silvana Lapalombella, Elena Fabbri, and Ettore Randi

Low Major Histocompatibility Complex Class II Variation in the Endangered Indo-Pacific Humpback Dolphin (Sousa chinensis): Inferences About the Role of Balancing Selection
Xiyang Zhang, Wenzhi Lin, Ruilian Zhou, Duan Gui, Xinjian Yu, and Yuping Wu

Integrating Nonadditive Genomic Relationship Matrices into the Study of Genetic Architecture of Complex Traits
Alireza Nazarian and Salvador A. Gezan

Comparative Transcriptome Analysis between the Fungal Plant Pathogens Sclerotinia sclerotiorum and S. trifoliorum Using RNA Sequencing
Dan Qiu, Liangsheng Xu, George Vandemark, and Weidong Chen

The Evolutionary Dynamics of Ribosomal Genes, Histone H3, and Transposable Rex Elements in the Genome of Atlantic Snappers
Gideão Wagner Werneck Félix da Costa, Marcelo de Bello Cioffi, Luiz Antonio Carlos Bertollo, and Wagner Franco Molina

BRIEF COMMUNICATIONS
Multiple Paternity in the Norway Rat, Rattus norvegicus, from Urban Slums in Salvador, Brazil
Federico Costa, Jonathan L. Richardson, Kirstin Dion, Carol Mariani, Arsinoe C. Pertile, Mary K. Burak, James E. Childs, Albert I. Ko, and Adalgisa Caccone

Combined Use of Molecular Markers and High-Resolution Melting (HRM) to Assess Chromosome Dosage in Potato Hybrids
Clizia Villano, Valeria Miraglia, Massimo Iorizzo, Riccardo Aversano, and Domenico Carputo
LETTERS TO THE EDITOR
Cross-Species Application of SNP Chips is Not Suitable for Identifying Runs of Homozygosity
Aaron B. A. Shafer, Joshua M. Miller, and Marty Kardos 193

Response to “Cross-Species Application of SNP Chips is Not Suitable for Identifying Runs of Homozygosity” by Shafer, Miller, and Kardos
Veronika Kharzinova, Alexander A. Sermyagin, Elena A. Gladyr, Gottfried Brem, and Natalia A. Zinovieva 196

ANNOUNCEMENTS 198
