A DIMINUTIVE CAT POPULATION OF SÃO PAULO, BRAZIL

November-December 1972
Volume 63 Number 6
ARTICLES

The Dilemma of Nearly Neutral Mutations: How Important Are They For Evolution and Human Welfare?  
James F. Crow 306

The Inheritance of Two Peroxidases in Oat Leaves  
Rex L. Smith 317

Some Cats of São Paulo, Brazil  
Neil B. Todd and Robert L. Jeanne 321

Effect of Temperature Stress on Growth, Reproduction, and Adrenocortical Function of Mice  
S. P. Wilson, D. P. Doolittle, T. G. Dunn and P. V. Malven 324

Effect of Gene Dosage on Level of Alcohol Dehydrogenase  
in Drosophila  
Sarah Bedichek Pipkin and Nathaniel E. Hewitt 331

Award of the Meyer Memorial Medal to Donovan S. Correll 337

Estimating the Frequency of Induced Dominant Lethal Mutations in Mice:  
The evaluation of a new method  
E. R. Soares 339

Hydrocephalus: A New Mutation in the Syrian Golden Hamster  
Chai H. Yoon and Jeanne Slaney 344

Genetic Variation in Nicotinic Acid Requirements of Chicks  
M. C. Nesheim 347

A Genetic Investigation of Roller and Tumbler Pigeons  
Richard K. Entrikin and Lawrence C. Erway 351

Diploidized Haploids From Aseptically Cultured Anthers of Nicotiana tabacum  
L. G. Burk, G. R. Gwynn, and J. F. Chaplin 355

Inheritance of Hard Seed in Vicia  
E. D. Donnelly, J. E. Watson, and John A. McGuire 361

A Comparison of Multiple Trait Selection Methods in the Mouse  
D. P. Doolittle, T. G. Dunn, and Linda L. Hulbert 366

NEWS AND NOTES

George W. Beadle awarded Donald F. Jones Medal 330

Genetic counseling brochure available 365

Revision of linkage map of chromosome 5 in barley by means of tetrasomic analysis  
T. Tsuchiya 373

Rhoeo spathacea: A tool for teaching meiosis and mitosis  
Sandra K. Satterfield and Thomas R. Mertens 375

Chromosomal studies in the squirrel monkey  
D. N. Singh and N. L. Garlick 379

Mosaic 47XX (X-p) and the Lyon Hypothesis  
Joseph G. Bohorford, Andres R. Fernandez, and Clyde Keeler 381

A definition of degree of heredity for a quantitative character in relationship to the classical coefficient of heritability  
K. Christensen and P. Sorensen 383

Inheritance of waxless in triticale  
K. C. Yeung and E. N. Larter 384

Title page and index to volume 63 385

THE COVER: A group of slightly more than 100 cats, who reside mainly in the Praça Ramos de Azavedo, São Paulo, Brazil, at feeding time. The phenotypes of these cats were analyzed from photographic evidence, and gene frequencies were calculated for several mutant genes (see Some Cats of São Paulo, Brazil, page 321).
